### ALLOCATIONS FOR SEASON 2004/5

The allocations for 2004/5, expressed as a percentage of Transferable Water Entitlement (TWE), are:

|                |               |
|----------------|---------------|
| <b>Waroona</b> | <b>= 90%</b>  |
| <b>Harvey</b>  | <b>= 80%</b>  |
| <b>Collie</b>  | <b>= 100%</b> |

Rainfall has again been very low this year with exceptionally dry July (105mm) and September (31 mm). The reduction in run-off is several times greater than the reduction in rainfall.

### TRADE

Irrigators may now apply for trades including from Waroona to Harvey. There will be no fee for trades in districts where there is a restriction.

### IRRIGATOR MEETINGS

Harvey Water will arrange meetings in each district in the near future to discuss allocations and related water matters.

### INSTALLATION OF PIPELINES

Clean up works are still going on in Waroona and Harvey after the installation of 18 km of pipelines.

Harvey Water apologises for any inconvenience caused during construction and as a result of the clean up works while we improve the water distribution system.
