

Form: RWS01

RURAL WATER SERVICE APPLICATION FORM

Introduction / Background

Rural Water Services Pty Ltd is a wholly owned subsidiary of Harvey Water, formed in 2004 to supply **non-potable** water to non-shareholders, typically on lots of less than 5ha.

A Rural Water Service (RWS) replaces what was previously known as a By-Law 11. With the introduction of the piped irrigation water system in Harvey, new non-shareholders and existing By-Law 11 customers wanting a stock and garden supply may have the option to become a RWS customer.

The RWS Asset Levy (Fixed Charge) is \$19.78 per Megalitre for the financial year 2009/10. These are raised in 3 equal instalments at the end of July, September and December of each year, covering **1 July 2009 to 30 June 2010**. The RWS Access Charge (Fixed Charge) is \$489.95 per connection for 2009/10. These are also raised in three instalments as above.

Consumption charges are raised on a monthly basis during the irrigation season (usually between September and May depending on the season). The RWS Consumption Charge is \$0.41 per Kilolitre.

Please Note: Water is **non-potable** and **must** not be used for drinking, cooking, cleaning, bathing, laundry or any other household purpose and may cause serious illness injury or death if consumed or used in such a manner.

Upon completion please post this form back to Harvey Water, PO BOX 456, Harvey WA 6220 or via fax 9729 0111. Enquiries ph: 9729 0100
